compatible with

iOS

android

Combining the industry's most advanced security features with the latest card acceptance technology, the G5X provides merchants with a fast, reliable, and seamless mPOS experience.

Flexible

- Hardware Security Module (HSM) decryption providing users with the ability to leverage ROAMpay decryption services or continue using their own
- Secure APIs for integration with existing mobile payment applications
- Custom-branding options and choice of multiple form factors

Reliable

- Dual track magnetic stripe reader (MSR) enabling retrieval of multiple data types from one swipe and readability of additional card types (i.e. gift cards)
- Extended audio jack allowing device to plug into virtually any mobile device or case
- Field tested design powering the world's leading mPOS solutions

Secure

- Compliant with the latest Visa Ready requirements for secure payment acceptance
- Cipher-block chaining (CBC) encryption providing enterprise-grade security
- Developed by the world's first and most experienced provider of secure mobile card readers

Feature	Description
Card Readers	Magnetic card reader: Standard (ISO 7810, 7813, Track 1/2)
Connectivity	Audio jack: for communication with mobile device
Dimensions	55.6 x 34.8 x 16.8mm / 2.2 x 1.4 x .7in (l x w x h)
Weight	20g / .7oz
Environment	Operating Temperature: -10°C to +45°C Storage Temperature: -10°C to +60°C
Lifetime	50k minimum on Magnetic Card Reader 3 years / 20k for battery
Certification	Visa Ready FCC
